Yad Vashem's, “Architecture of Murder,” is currently on display in Burling Library, which includes blueprints, photographs, and other documentation of Auschwitz-Birkenau.

What does architecture, even an architecture of murder, have to do with us? Our minds? How, if we don't know the past, don't understand the implications of remembering, then in some awful way are we complicit in murder?

Artist, scholar, and writer, Ellen Frank is the visionary founder of The **Ellen Frank Illumination Arts Foundation, Inc.**, and its flagship **Cities of Peace**, a non-profit organization dedicated to the transformative power of art to build a global culture of understanding and peace.

Dr. Frank's work challenges perception of war-ravaged cities to recognize the historical greatness of these cities, rebuilding dignity where the social fabric has been torn apart.
